```
SELECT * FROM Employees  
WHERE age IN (25,30);
```

28. Find employees whose salary is NULL

```
SELECT * FROM Employees  
WHERE salary IS NULL;
```

29. Find employees whose salary is not NULL

```
SELECT * FROM Employees  
WHERE salary IS NOT NULL;
```

30. Count employees from each city

```
SELECT city, COUNT(*)  
FROM Employees  
GROUP BY city;
```

31. Find highest salary employee

```
SELECT *  
FROM Employees  
ORDER BY salary DESC  
LIMIT 1;
```

32. Find lowest salary employee

```
SELECT *  
FROM Employees  
ORDER BY salary ASC  
LIMIT 1;
```

33. Find employees older than average age

```
SELECT *  
FROM Employees  
WHERE age > (SELECT AVG(age) FROM Employees);
```

34. Find employees with same department

```
SELECT * FROM Employees  
WHERE department = 'HR';
```

35. Find employees whose salary is greater than average salary

```
SELECT *  
FROM Employees  
WHERE salary > (SELECT AVG(salary) FROM Employees);
```

36. Find employees ordered by age

```
SELECT * FROM Employees  
ORDER BY age;
```

37. Show only first 3 employees

```
SELECT * FROM Employees  
LIMIT 3;
```

38. Find total employees in IT department

```
SELECT COUNT(*)  
FROM Employees  
WHERE department = 'IT';
```
